CENTRAL INTELLIGENCE AGENCY

16 June 1977

NOTE FOR: DDCI

Hank -

There are numerous misperceptions in here, suggestions to do things that we have been trying to do for years, and other totally impractical proposals. Before making a mountainness paper response to this, I suggest that you and each of the DDs have a meeting with the MAGID in the course of which I think the members would acquire a better appreciation of reality. You might want to discuss this briefly at an EAG before laying this on. Although each DD has his own MAG, I think there is merit in any case to giving the MAGID access to the other top managers.
